11. Summary of the new findings of the thesis:
 - Firstly, systemising the theory of crime research, the offender rehabilitation and some concepts such as the prison, offender, legal education for offenders and some other definitions related to the title of study.
 - Secondly, study on the characteristics of offenders who are serving their sentences in prison such as age, vocation, type of criminal offense, educational background, etc.
 - Thirdly, assessment on the legal education for offenders in prisons managed by Ministry of Public Security (MPS).
 - Lastly, the contemporary report on the offender rehabilitation in Nam Ha prison showing the elements affect the legal education for offenders and the efficiency of the legal education. This provides with the scientific base to help the criminal sentence enforcement agency realize properly and then plan for the appropriate education programs for offenders to raise the efficiency.
12. Practicial applicability

- All the knowledge and information from the survey in prisons might consolidate for the reasoning and database in the statistics as well as raise more awareness for the rehabilitation of offenders in prisons from the social view, which enrich the expertise in the field of corrections.

- The founding of thesis may be used as the reference in teaching, studying the subjects of the Socio-criminology, Socio-jurisprudence and provide for the programs in prisons to rehabilitate the offenders and the related objectives.

- Provide with the database of the initial survey in the legal education for offenders in prisons.

-The solutions suggested in the thesis will implement more efficiencies for the legal education for offenders who are serving time in prisons.

13. Futher research direction: study on the affection of the legal education for offenders serving time of imprisonment (prisons by MPS in the North, Central region and South).
